How we protect buyers

- The exact unit, its mileage and photos are confirmed to you in writing before you pay.
- You receive an official invoice by email showing your name, delivery address, the exact part and the price.
- 3-year parts warranty against defects in major internal parts. The warranty covers the part, not labor or installation.
- 30-day returns with no restocking fee. If a part arrives damaged or wrong, tell us within 48 hours and we replace it or refund you.
- Free liftgate freight to the lower 48 states.

How payment works

You can pay by card through our secure checkout, or by bank wire. Wire details come on your emailed invoice. Wire payments are received by our billing partner, and the payee name is shown on your wire details. If the name does not match, or anyone sends you different bank details, call us at (520) 200-8854 before you send any money. We will never ask you to send card numbers by text or email.

How to verify us

- Call or text (520) 200-8854 and ask for John. Ask any question before you pay.
- Email info@drivecoreautoparts.us. Our emails come from the drivecoreautoparts.us domain.
- Read our policies and this letter online at drivecoreautoparts.us/business-verification/.
- Ask for the written unit details and the invoice first. You pay nothing before you have approved them.

Sincerely,

John
